

Declaration about H1N1- virus – efficacy of our products

According to the Federal German Robert Koch Institute a disinfectant is effective against all enveloped viruses if it has been successfully tested for BDVD and Vaccinia – efficacy or, as formerly used as test germs, for HIV and HBV efficacy.

This includes automatically also efficacy against the H1N1 virus, as the latter one is also an enveloped virus.

H1N1 – efficacy is therefore given for the following of our products:

Instru Zym, Alpha Guard GF, Endomat Plus, Instru Plus, Instru Plus RFU, Instru Plus Forte, Endo Star, Endo Star RFU, Instru Extra, Instru Star, Instru Star RFU, Instru Suc, Acetal Combi, Beta Guard, Alpha Guard, Spray In, Spray In Neu, Spray Off N, Top Off, Top Off Maxi Wipes, Top Off Maxi Alpha Wipes, Top Off Comfort Wipes, Top Off Comfort Alpha Wipes, Op Sept, Lotio HD, Op Derm.
